

Remote & Hybrid Work Policy

Effective Date: Immediately

Policy Owner: People Operations

Approved By: Executive Leadership Team

Review Cadence: Annual (or as business needs require)

Confidential – Internal Use Only

Purpose

This policy establishes MakeWorkInc’s framework for remote and hybrid work arrangements. It is designed to:

- Enable operational flexibility while maintaining performance and accountability
- Protect the company’s legal, financial, and information security interests
- Ensure consistency and fairness in eligibility and decision-making
- Support productivity, collaboration, and customer responsiveness
- Provide clear guardrails for managers and employees

Remote work is a business arrangement, not an entitlement. All arrangements remain subject to business needs and may be modified or rescinded at the company’s discretion.

Scope

This policy applies to all regular full-time and part-time employees of MakeWorkInc. It does not apply to contractors, temporary workers, or interns unless explicitly stated in their engagement terms.

Geographic eligibility and employment requirements may vary by country, state, or local law. All remote work arrangements must comply with applicable wage and hour, tax, and employment regulations in the jurisdiction where the employee performs work.

Guiding Principles

MakeWorkInc’s remote work philosophy is grounded in the following principles:

1. **Business First:** Operational effectiveness, customer experience, and team coordination take priority over individual preference.
2. **Manager Discretion with Guardrails:** Managers are empowered to make decisions within this policy framework, with oversight from People Operations.
3. **Accountability Over Activity:** Performance is measured by outcomes, deliverables, and impact—not online presence.
4. **Security and Compliance:** Protection of company data, intellectual property, and systems is non-negotiable.
5. **Scalability and Consistency:** Decisions must be applied consistently across teams to reduce risk and avoid perceived inequities.

Work Arrangement Categories

Fully Remote

Employees perform their work from an approved remote location and are not assigned to a regular office location. Periodic travel for team offsites, training, or company events may be required.

Hybrid

Employees split time between a designated MakeWorkInc office and a remote work location. Expected in-office cadence is defined by function or leadership (e.g., 2–3 days per week).

Onsite

Employees primarily work from a company office or designated site due to role requirements.

The company reserves the right to classify roles by required work arrangement based on business need.

Eligibility

Eligibility for remote or hybrid work is determined by the company and depends on:

- Role responsibilities and customer impact
- Need for cross-functional collaboration
- Data security requirements
- Team structure and geographic distribution
- Performance history and demonstrated accountability
- Regulatory or tax constraints

Not all roles are eligible for remote work. Roles requiring physical presence may be designated as onsite.

Employees must have completed their introductory period and be in good standing to be considered for remote arrangements unless otherwise approved.

Approval Process

1. Employee submits a written request to their manager outlining:
 - Proposed work arrangement
 - Primary work location (city/state/country)
 - Confirmation of suitable workspace
2. Manager evaluates based on:
 - Business needs
 - Team impact
 - Performance track record
 - Operational feasibility
3. People Operations reviews for:
 - Wage and hour compliance
 - Tax and registration implications

- Jurisdictional employment risks

Final approval requires written confirmation from both the manager and People Operations.

Remote work arrangements are not permanent guarantees and may be revised at the company's discretion.

Work Location Requirements

Employees must:

- Work from an approved jurisdiction where MakeWorkInc is authorized to employ staff or willing to establish compliance infrastructure
- Notify the company in advance of any relocation
- Obtain written approval before changing primary work location

Unapproved relocation may result in disciplinary action, up to and including termination.

MakeWorkInc does not support “work from anywhere” arrangements outside approved jurisdictions without executive approval.

Work Hours and Availability

Remote employees are expected to:

- Maintain regular business hours aligned with team expectations
- Be reachable during defined core collaboration hours
- Attend required meetings and company events
- Accurately record time worked if non-exempt

Overtime rules for non-exempt employees apply regardless of work location. Off-the-clock work is strictly prohibited.

Performance and Accountability

Performance standards remain consistent across all work arrangements.

Managers are responsible for:

- Setting clear deliverables and timelines
- Documenting expectations and outcomes
- Addressing performance issues promptly

If remote work negatively impacts performance, collaboration, responsiveness, or business outcomes, the arrangement may be modified or revoked.

Remote status will not shield employees from performance management processes.

Equipment and Technology

MakeWorkInc will provide company-issued equipment as determined by role.

Employees are responsible for:

- Maintaining a secure, reliable internet connection
- Protecting company equipment from loss, theft, or damage
- Using company-approved systems and security tools

Personal devices may not be used for company work unless explicitly authorized.

Information Security and Confidentiality

Remote employees must:

- Ensure confidential conversations cannot be overheard
- Secure physical documents and devices
- Avoid public Wi-Fi without approved security measures
- Immediately report suspected data breaches or device loss

Failure to comply may result in disciplinary action.

Workspace and Safety

Employees are responsible for maintaining a safe, professional workspace that:

- Is free from known safety hazards
- Supports ergonomic best practices
- Allows confidential work to be conducted appropriately

Workers' compensation coverage applies only to injuries arising out of and in the course of employment activities.

Expenses and Reimbursements

Expense reimbursement will be handled in accordance with:

- Applicable reimbursement laws
- The MakeWorkInc Expense Reimbursement Policy

The company may provide a one-time remote setup stipend at its discretion. Ongoing home office expenses are generally not reimbursable unless required by law.

Travel Requirements

Remote employees may be required to travel for:

- Team offsites
- Leadership summits
- Training sessions
- Customer engagements

Travel frequency will vary by role and function. Employees are expected to accommodate reasonable business travel.

Tax and Compliance Considerations

Remote work may create:

- State or international tax nexus
- Payroll registration obligations
- Employment law exposure

All remote arrangements must be reviewed for compliance impact. Final determinations regarding allowable jurisdictions are at the company's discretion and may change as laws evolve.

Legal counsel may be consulted where necessary.

Modification or Revocation of Remote Status

MakeWorkInc reserves the right to modify or terminate remote work arrangements based on:

- Business restructuring
- Performance concerns
- Team effectiveness issues
- Compliance or regulatory risks
- Leadership determination of business need

Where feasible, reasonable notice will be provided. Immediate changes may be required in exceptional circumstances.

Manager Responsibilities

Managers are accountable for:

- Applying this policy consistently
- Avoiding undocumented arrangements
- Ensuring equity across similarly situated employees
- Monitoring performance and engagement
- Escalating compliance or relocation risks promptly

Exceptions require approval from People Operations and executive leadership where risk exposure is material.

Non-Discrimination

Remote work decisions will not be made based on protected characteristics. Eligibility is determined by business necessity and role requirements.

Accommodation requests will be handled under the company's Reasonable Accommodation Policy.

Policy Exceptions

Exceptions require:

- Written business justification
- Approval from People Operations

- Executive Leadership Team approval where appropriate

All exceptions must be documented.

Policy Review and Amendments

This policy will be reviewed annually and may be amended at any time to reflect changes in business strategy, organizational design, regulatory requirements, or risk tolerance.
